

Q2 – Quality Assessment Technical Experience Template

Please use the templates below to answer Question 2 – Technical Experience and provide up to 2 examples that demonstrate experience that is relevant to this procurement exercise.

Your examples should be from within the last 5 years for pump track contracts under a Design and Build contract and should be valued between £0-£250k.

Each example:

- Must provide an explanation of your actual role in delivering the project
- Must detail any added value or innovative solutions you brought to the project
- Must include the extent of public consultation you were involved in
- May include a photo

If you cannot provide any examples of similar works carried out within the aforementioned period, you should explain why at the bottom of this template and provide clear evidence to support your technical experience; this evidence shall be checked to allow the evaluation panel to allocate points accordingly, based on the sole opinion of the council. Failure to provide sufficient evidence may result in you being allocated 0 points.

Your completed response should be no more than 2 pages of A4 minimum font size 10.

Should your submission exceed the required amount of evidence, ACSR and partners shall only evaluate the first 2 A4 pages and shall not evaluate any additional marketing materials.

Contractor Name	
Example 1	
Name of Project	
Name of Customer Organisation	
Contact Details at Customer Organisation Name, Telephone Number, email address	
Description of the overall project and the scope of the contract works. Include - Details of your role in delivering the contract, i.e. whether principal contractor, sub-contractor, any design responsibilities. - Details of any instances where you were able to demonstrate added value or innovative solutions. - Extent of public consultation	
Contract value (£)	
Contract Start Date	
Contract End Date	

Example 2	
Name of Project	
Name of Customer Organisation	
Contact Details at Customer Organisation Name, Telephone Number, email address	
Description of the overall project and the scope of the contract works. Include: - Details of your role in delivering the contract, i.e. whether principal contractor, sub-contractor, any design responsibilities. - Details of any instances where you were able to demonstrate added value or innovative solutions. - Extent of public consultation
